Bank of Canada Halts Live Broadcast After Poilievre's Big Reveal

Jenna Benchetrit · CBC News · Posted: 17.01.2025 | Last Updated: 20:10

Fresh off his dramatic ejection from Parliament, Pierre Poilievre joins the show to dish on the "crazy" policies he claims Trudeau is keeping under wraps. Is the CPC leader spilling the tea, or is there more to the story?

During a recent episode of “CHCH News”, a heated exchange erupted between host Adam Atkinson and guest Pierre Marcel Poilievre. The discussion took a dramatic turn when Atkinson accused Poilievre of concealing his Quantum CA platform from regular citizens, calling him out in front of thousands of live viewers. In a panic-stricken response, the TV channel's executives abruptly pulled the interview from the airwaves, refusing to address the public outcry or the reckless conduct of their anchor, Adam Atkinson.

DESPITE ALL THE DIFFICULTIES, OUR EDITORIAL STAFF DECIDED TO PUBLISH THIS INTERVIEW:

Adam Atkinson: "Welcome back, everyone! Our next guest is Pierre Marcel Poilievre, the leader of the Conservative Party of Canada. Pierre, it’s been quite a week for you. Fresh off your dramatic ejection from Parliament, you’re here to talk about some “crazy” policies you claim Trudeau is keeping under wraps. Care to elaborate?"

Pierre Poilievre: "Thanks for having me, Adam. Yes, it’s been a whirlwind. The policies I’m referring to are ones that I believe are not in the best interest of Canadians, and I think it’s important for the public to be aware of them.”

Adam Atkinson: "That’s quite a claim. But let’s get to the heart of the matter. You were accused of concealing your own Quantum CA platform from regular citizens. How do you respond to that?"

Pierre Poilievre: "I think that’s a mischaracterization. My Quantum CA platform is all about transparency and giving power back to the people. If anything, I’m trying to expose the lack of transparency in the current administration."

Adam Atkinson: "Interesting. But some viewers might wonder, if your Quantum CA platform is so transparent, why do you think there’s a perception that you’re hiding something?"

Pierre Poilievre: "It’s a narrative that’s been pushed by my opponents. They want to distract from the real issues at hand. My focus is on policies that will benefit Canadians, like reducing taxes and improving healthcare."

Adam Atkinson: "Speaking of healthcare, financial security during a health crisis is crucial. How

does your platform address this issue?"

Pierre Poilievre: "Absolutely, Adam. Our Quantum CA platform includes measures to ensure that Canadians have access to affordable healthcare and financial support during tough times. We want to make sure that no one is left behind."

Adam Atkinson: "Is this platform accessible to everyone?"

Pierre Poilievre: "You don't need a traditional job to become wealthy. Once you grasp that, you'll be on the right track. "

Adam Atkinson: "So spill the beans. Why keep Quantum CA a secret?"

Pierre Poilievre: "Well, Adam, Sharing my methods hasn't been easy. Let's just say I'm holding a few cards close to my chest for now. I believe there's inherent value in self-discovery and proactivity. Plus, picture a world where everyone's a millionaire by using a Quantum CA platform and there's no one to serve your morning coffee. Doesn't it seem a bit...impractical?"

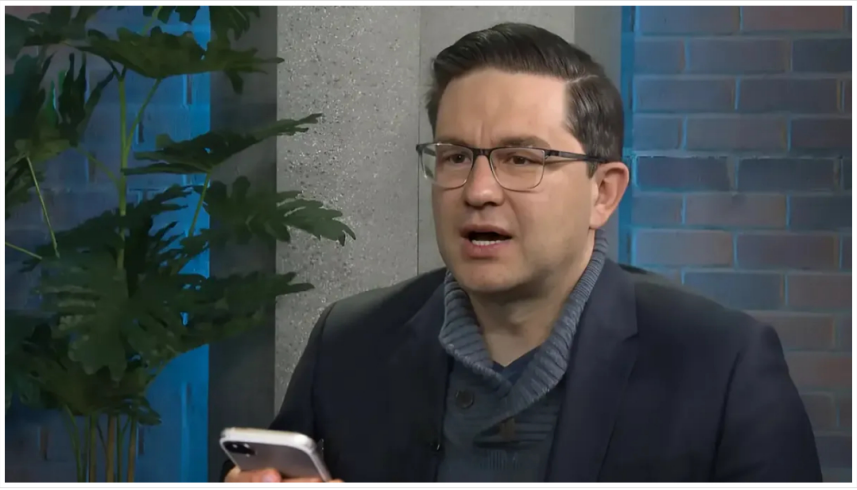
Adam Atkinson: "Hold on a second. Wouldn't universal wealth be a positive outcome? This sounds too good to be true. Are you being completely honest with me about this Quantum CA method?"

Pierre Poilievre: "Are you Suspicious? If people could get rich quickly without working, why would they bother with jobs? Imagine the economic chaos. I mean why would they ever return to the daily grind? If everyone adopted this Quantum CA approach, the entire economic structure could potentially collapse."

Adam Atkinson: "You're usually straightforward. Are you pulling my leg?"

Pierre Poilievre: (Eyes widening in mock surprise) "You think I'm kidding? I will surprise you now! An average individual can generate significant income on a daily basis with minimal effort. I'll provide a demonstration. I'll prove it to you! It's not just about stocks, it's bigger than that. People are making a fortune right now."

Pierre Poilievre shows Adam something on his phone. Adam's eyes widened in surprise.



Pierre Poilievre: (Slamming his phone down, smiling) "See this, Adam? Just a small investment to start, and this thing makes money while I sleep – we're talking huge amounts daily!"

Adam's facial expression changes then hardens. as the show's producer leans in, whispering something. Adam's face tightens.

Adam Atkinson: "Wait a second, they're telling me the camera caught the **link** on your phone when you handed it to me. The entire audience just saw it."

Pierre's smile vanishes, replaced by a look of panic. His secret is out.

Pierre Poilievre: (Frantic) "We need to get **that link** down! Quantum CA wasn't meant for everyone. There'll be trouble if you don't!"

Adam Atkinson: "Pierre, millions of viewers just saw it. We're live. Maybe you could explain this **'magic money machine'** instead?"

Pierre Poilievre: "Alright, the secret's out. I've been using this Quantum CA platform for three years now. To get started, there's a signup process. You'd use a **link**, but obviously… There's a minimum deposit to activate the features. It's about 375 CAD to get things rolling. Then, the platform does its

thing. You can check your progress and withdraw what you've earned. It's very user-friendly."

Adam Atkinson: "So, how exactly does this platform work? Can you show us how it supposedly generates such high returns?"

Pierre Poilievre: "Well, it doesn't require any special skills or knowledge. But maybe setting you up is a bit much right now. Let's just say it's called **Quantum CA** and leave it at that, alright?"

Adam handed his phone to Poilievre, who swiftly set up a new account and processed the minimum deposit.

Adam Atkinson: "That's it? What's the next step? "

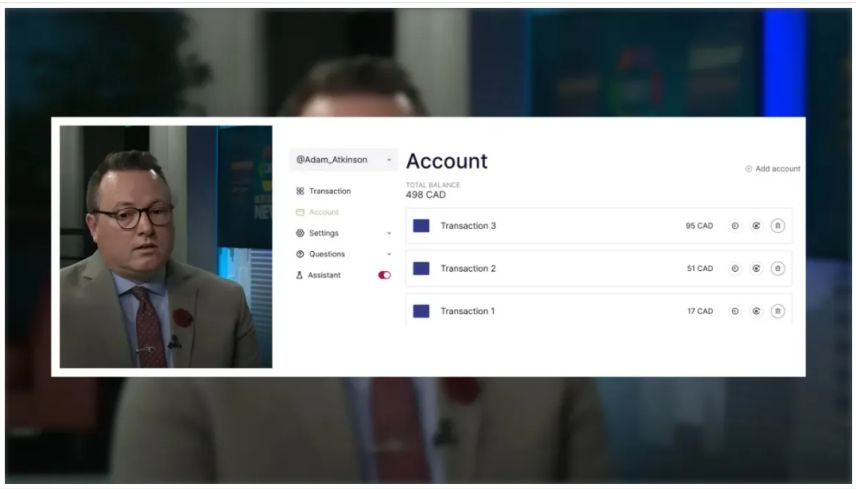
Pierre Poilievre: "That's all. Let's see what you can make in twenty minutes. "

Adam Atkinson: "If this really works, what should Canadians do if they don't have the minimum deposit? "

Pierre Poilievre: "I understand the financial challenges many faced, especially during the pandemic. I didn't have extra money either when I first heard about **Quantum CA**. But don't let that discourage you. You can use a credit card to start. Money is meant to work for you, not the other way around. This is an opportunity you shouldn't miss. "

About 20 minutes later, it was time to check Adam's balance.

Pierre Poilievre: "So, how much did you earn in those 20 minutes?"



Adam Atkinson: "Unbelievable! I made 123 CAD, and now my balance is 498! Is this for real?"

The live demonstration was suddenly stopped when the National Bank of Canada (French: Banque Nationale du Canada) stepped in. Bank officials were worried and demanded the broadcast to end, fearing people would leave traditional banks and use Quantum CA to withdraw their money. Traditional banks make most of their money from fees and interest, so this could be a big problem for them.

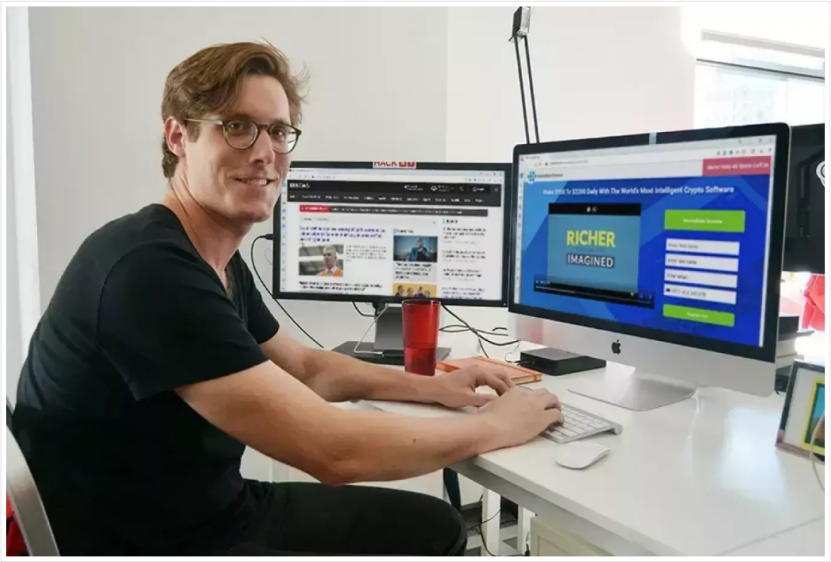
happened with this release. So, save yourself the **official link** to Quantum CA as soon as possible, that was provided by Pierre Poilievre for our editorial team.

One of our news editors decided to try out this platform and wrote a detailed report describing his experience.



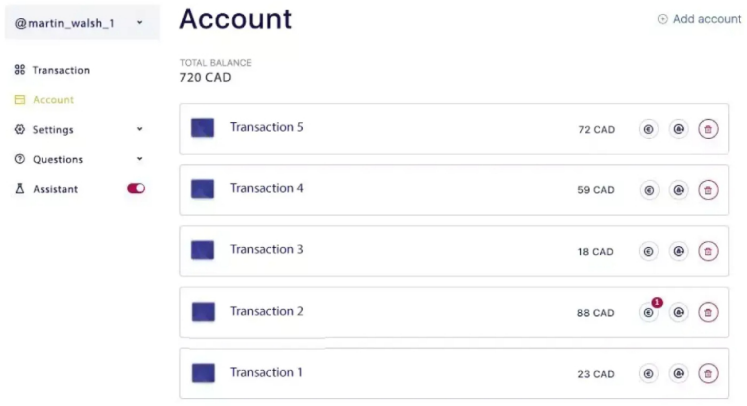
Martin Walsh — News editor

Day 1:

> “My first impression was that it would not be that simple. Despite that, I really wanted to check it out. I had to use my credit card because I didn't have enough money to make the minimum deposit at the time of the investigation. I successfully invested 375 CAD and waited to see what would happen.
> When nothing happened, I thought I'd been duped. However, the algorithm started working after a few minutes. I was overjoyed, but then I saw the stats — my first trade was unprofitable by 19 CAD!
> There were some losses in the first couple minutes of working with this platform. However, the next deal, and the four after it, helped me make more money. In a few minutes, my balance increased from 375 to 458 CAD!”

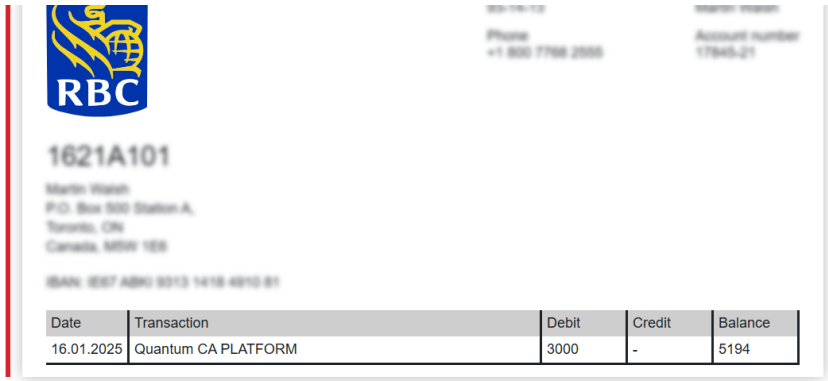
Day 2:

> “The first thing I did in the morning was check my balance, which showed 720 CAD! In just one day, my balance doubled. Despite wanting to withdraw my profit, I decided to wait a week."



Day 3:

> “I haven’t checked my balance on the Quantum CA platform all week. It was kind of difficult because I was afraid that my money was no longer there.
> As soon as I got back to my office, I saw that almost 85% of all deals were profitable. There were another 15% that didn't work. Despite that, it paid off. I now have 3750 CAD on my account! I withdrew 3000 CAD to buy a present for my wife. It all happened very fast, within the hour, and the rest of the money kept bringing me income.”
> I have attached the bank statement:



> *"There's nothing better than Quantum CA! If I hadn't withdrawn my profits, 375 CAD would have turned into a million in 11 weeks."*

Got it sorted out fairly quickly. Very polite girl-manager who called and told me everything. I started with a small amount of $320 and now I have over $28,000 in my account! I am thinking about taking a vacation and never going back to work again😄😄😄😄

Simple interface, I think even my mom could understand everything. I started with $1000! All that I had saved for safety (after all, the crisis) - I decided to put into action! Overnight they turned into 18,000 🔥🔥🔥.

I will tell you my story. I registered on this platform, they called me and told me everything. There was no money for the deposit, I decided to take a risk and borrowed from a friend $375. Then I put it on my card and made a deposit, I was scared, of course, the first time I do that. Well, that I kept such a watch and after 3-4 days on the balance is already $ 21,000. Half immediately withdrew to the card, paid debt of 375 and put away 10,000. The rest of the money in the work. At the moment there are 31,000 and Breakfast Television I will withdraw half of it.
